A. M. ASIF IMTIAZ UDOY

Full Stack Web Developer

Hello there,

I am A.M. Asif Imtiaz Udo. You can call me Udo. Currently I am studying in Development Studies discipline at Khulna University. I am a professional Full-stack developer and experienced in HTML, CSS, responsive design, Bootstrap, jQuery, Vue, php, Laravel, ajax and livewire. I have done several projects on my own and also do some project with team. I am highly interested in learning new technology.

Thank you! with love Udo

Project Experience

NEWSPAPER PROJECT

nl24news

This is a newspaper site which I design & develop with one of my teammates. Here, I use HTML as a markup language CSS for styling and bootstrap for responsive design. In the backend section I use Laravel and some of its package which is 'Spatie' for role permission, 'Image Intervention' for image upload and resizing, 'Yajrabox' as Laravel datatable for using ajax. Some short information has given below about the project:

- Fully responsive design
- Frontend technology - HTML, CSS, Bootstrap & jQuery
- Backend technology - Laravel & Ajax
- Live at - <https://nl24news.com/>

CV-MANAGER PROJECT

A simple cv maker website

This is a simple cv maker site which is design & developed by me where a person fills up the form and from the backend the owner can download the CV of that person. Here, I use HTML, CSS & Bootstrap for design and I use Laravel LiveWire for develop and 'dompdf' package for download CV as pdf. Some short information has given below about the project:

- Fully responsive design
- Frontend technology - HTML, CSS, Bootstrap & jQuery
- Backend technology - Laravel & LiveWire
- Live at - <http://cv.dailysokalersomoy.com/>

MISCELLANEOUS

Above two projects are currently live. Without these projects I also do several projects for practice purposes. Some of them are 'e-commerce', 'blog' & 'portfolio' website. I am also familiar with 'Vue' and currently developing a project with 'Vue' in the frontend and 'RestApi' in the backend.
